THE 3 STRUCTURAL ENGINES POWERING CHECKPASS

PILLAR 1: ACCESS **Sub-4s QR Gate Clearance & Offline Cryptographic Tokens:** Eradicates entry queue friction, paper logbooks, and phone calls—even during total cellular downtime.

PILLAR 2: DUES FINTECH **Dual-Track Dues & Collections Ledger:** Instant online payments (card/USSD/transfer) plus manual bank receipt uploads with 1-click admin approval. Eliminates 95%+ of defaults.

PILLAR 3: ARTISANS **Curated Resident Artisan Directory:** In-app booking for background-checked plumbers, electricians, and technicians with gate entry/exit logging and commission upside.

Sheffy Technologies Ltd. • Corporate Strategy & Financial Model • Lekki Phase 1, Lagos, Nigeria

Document Version: **3.0 (Full P&L Edition)** • Date: **November 2026**

1. The African Estate Operations Crisis

MARKET URGENCY

Over 16,000 organized residential gated communities in West Africa manage hundreds of thousands of affluent homes and multi-million dollar shared infrastructures using archaic paper exercise books, vulnerable WhatsApp groups, and chaotic Excel spreadsheets.

1. Gate Logjam & Intercom Friction

Visitors wait 5–15 minutes at the gate while guards place cellular calls to residents. When network is poor, gates lock up completely, generating massive road queues and resident outrage.

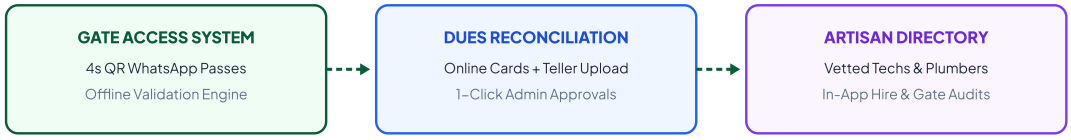

2. Massive Dues Defaults (35–45%)

Estates struggle to collect diesel levies, security fees, and service charges. Residents argue over manual bank transfers, missing tellers, and delayed receipts, leaving estates broke before AGMs.

3. Untrusted Artisans & Crime

Residents bring unvetted external plumbers and technicians into homes. Over 60% of domestic estate thefts involve unauthorized domestic workers with no gate entrance audit trails.

CheckPass Architecture: The Closed-Loop Ecosystem

Why Estates Cannot Churn

Once CheckPass synchronizes the estate's resident database, dues ledgers, and gatehouse devices, switching costs are immense. The committee relies on CheckPass for AGM audit reports, and residents expect WhatsApp visitor passes daily.

High Viral Inter-Estate Expansion

When residents in Lekki Phase 1 or Maitama receive a 4-second CheckPass visitor pass to enter a friend's estate, they immediately demand their own estate executive committee implement CheckPass at the next monthly meeting.

2. Commercial Pricing Tiers & Unit Economics

GROSS MARGIN ANALYSIS

TIER / PACKAGE	TARGET SCALE	MONTHLY PRICE	ANNUAL PRICE (SAVE 20%)	CORE SCOPE & TRAINING POLICY
Boutique Estate	Up to 50 Units	**₦35,000 / mo**	₦350,000 / yr	1 Gate terminal, WhatsApp passes, Online/Manual dues, **Digital Guard Guides**
Gated Community Most Popular	**50 – 200 Units**	**₦75,000 / mo**	**₦750,000 / yr**	**Up to 3 Gates, Vetted Artisan Directory, 1-Tap SOS Siren, Remote Video Training**
Enterprise / Master	200+ Units	**₦180,000+ / mo**	Custom Contract	Unlimited Gates, ANPR, **Hands-on Physical In-Person Guard Drills (Exclusive)**

Guard Training Margin Protection Rule: To preserve an 85%+ gross margin profile, physical in-person guard training drills are strictly restricted to the **Enterprise** tier. Boutique and Gated tiers use digital visual step-by-step guides and remote video onboarding, ensuring zero field trainer burn.

Unit Economics: Per 100-Home Estate Cohort

ITEM (100 HOMES • GATED TIER)	MONTHLY (NGN)	% OF ARPU
Average Monthly SaaS ARPU	**₦75,000**	100.0%
Cloud API & Server Compute	-₦3,500	4.7%
S3 Photo Manifest & QR Storage	-₦1,800	2.4%
SMS Fallback Verification (Termii)	-₦3,200	4.3%
Shared Support & Ops Allocation	-₦2,500	3.3%
Total Variable COGS / Month	**-₦11,000**	**14.7%**
Gross Profit Per Estate / Month	**₦64,000**	**85.3%**

Why the ROI for Estate Excos is Irresistible:

A typical 100-home estate collects **₦2,500,000 to ₦5,000,000 monthly** in service charges and diesel levies.

CheckPass at ₦75,000/month represents less than **1.8% to 3.0% of their monthly dues collection pool**.

By eliminating defaulters and tracking receipts transparently, **recovering just ONE defaulting flat completely pays for CheckPass for the entire quarter**.

LTV / CAC Ratio: Estimated CAC is ₦52,000. LTV across 36 months at ₦75k/mo with 85% margin is ₦2,295,000. **LTV : CAC is 44 : 1** with a 22-day payback period.

3. Operating Expenses (OPEX) & Headcount Model

YEAR 1 FOUNDATION BUDGET

To achieve hyper-efficient growth, CheckPass maintains a lean, highly technical Nigerian team backed by performance marketing and active field operations across high-density estate corridors in Lagos and Abuja.

A. Core Personnel & Engineering Payroll (Monthly & Annual)

ROLE / POSITION	HEADCOUNT	PRIMARY OPERATIONAL RESPONSIBILITY	MONTHLY GROSS (NGN)	ANNUAL COST (NGN)
Chief Technical Officer (CTO)	1	System architecture, offline crypto engine, API security, infrastructure	₦850,000	₦10,200,000
Product Manager (PM)	1	Estate Exco research, feature sprint backlog, dues flow, metrics	₦650,000	₦7,800,000
Senior Backend Developer	1	Core APIs, database sync, fintech webhooks, artisan booking ledger	₦600,000	₦7,200,000
Frontend Developer (Web & PWA)	1	Vue 3 resident portal, gatehouse scanner UI, admin dashboards	₦500,000	₦6,000,000
Product Designer (UI/UX)	1	Design systems, interactive prototypes, pitch decks, user testing	₦450,000	₦5,400,000
Social Media & Community Manager	1	Resident advocacy, organic content, LinkedIn/X B2B presence, PR	₦250,000	₦3,000,000
Field Operations & Estate Liaisons	2	On-site gate inspection, Exco board presentations, hardware checks	₦400,000 (2× ₦200k)	₦4,800,000
Total Core Team Payroll	**8 Staff**	**Complete cross-functional product & operational team**	**₦3,700,000 / mo**	**₦44,400,000 / yr**

B. Sales, Marketing, Official Duty & Administrative OPEX

OPEX CATEGORY	OPERATIONAL BREAKDOWN & SPECIFIC USE OF FUNDS	MONTHLY COST (NGN)	ANNUAL COST (NGN)
Paid Ad Campaigns (CAC)	Hyper-targeted Meta, Google Search & LinkedIn B2B ads to Estate Excos, CDAs, and Facility Managers in Lekki, Ikoyi, Ikeja, Maitama, Jabi	₦750,000	₦9,000,000
B2B Sales Collateral & Pitch Kits	Executive presentation folders, printed technical dossiers, sample QR cards, and AGM demonstration exhibition kits	₦250,000	₦3,000,000
Official Duty & Field Logistics	Direct vehicle fuel, ride-hailing allowances, on-site gatehouse surveys, and emergency operations response across Lagos & Abuja	₦400,000	₦4,800,000
Staff Data & Field Device Stipends	High-speed multi-network data SIMs for live gatehouse testing, guard training demos, and staff communication lines	₦150,000	₦1,800,000
Office & Co-Working Hub	Flexible engineering & operations workspace in Lekki Phase 1, continuous power, internet backups, meeting rooms	₦450,000	₦5,400,000
Legal, Regulatory & NDPR Audit	Resident data privacy compliance (NDPR), CDA contract templates, corporate secretarial, annual external financial audits	₦200,000	₦2,400,000
SaaS Tooling & Developer Software	Slack, Figma, GitHub Enterprise, Google Workspace, AWS tooling, analytics, Jira	₦250,000	₦3,000,000
Miscellaneous & Contingency Buffer	5% emergency operational reserve, petty cash, unplanned equipment repairs, banking charges	₦300,000	₦3,600,000
TOTAL OPERATING EXPENSES (OPEX)	**Full Corporate & Field Burn Rate (Payroll + Marketing + Ops + G&A)**	**₦6,450,000 / mo**	**₦77,400,000 / yr (~$51.6k)**

4. 3-Year Pro Forma P&L Statement & Net Profit

FINANCIAL TRAJECTORY

Comprehensive 3-year income statement accounting for SaaS subscription revenue, fintech dues processing volume, artisan marketplace commissions, variable COGS, full OPEX burn, and corporate tax.

P&L FINANCIAL STATEMENT (NGN)	YEAR 1 (FOUNDATION)	YEAR 2 (EXPANSION)	YEAR 3 (SCALE & DOMINANCE)
Active Estates Under Management	**120 Estates**	**450 Estates**	**1,200 Estates**
Active Households / Units Covered	14,400 Units	58,500 Units	168,000 Units
Average Blended ARPU / Month	₦75,000 / mo	₦78,000 / mo	₦84,000 / mo
SaaS Subscription Revenue (ARR)	**₦108,000,000**	**₦421,200,000**	**₦1,209,600,000**
Secondary Revenue (Artisans & Online Dues Volume)	₦7,200,000	₦29,250,000	₦84,000,000
TOTAL GROSS REVENUE	**₦115,200,000**	**₦450,450,000**	**₦1,293,600,000 ($862k)**
Cost of Goods Sold (COGS: Cloud, SMS, S3 Photos, Server)	-₦19,300,000 (16.8%)	-₦65,700,000 (14.6%)	-₦170,750,000 (13.2%)
GROSS PROFIT	**₦95,900,000 (83.2%)**	**₦384,750,000 (85.4%)**	**₦1,122,850,000 (86.8%)**
Personnel Payroll (Engineering, PM, UI/UX, Ops)	-₦44,400,000	-₦98,000,000	-₦210,000,000
Marketing, Ad Campaigns & B2B Kits (CAC)	-₦12,000,000	-₦28,000,000	-₦58,000,000
Official Duty, Logistics, Fuel & Stipends	-₦6,600,000	-₦16,500,000	-₦32,000,000
G&A, Office Hub, Legal & Software Tooling	-₦10,800,000	-₦22,000,000	-₦45,000,000
Miscellaneous & Contingency Reserve	-₦3,600,000	-₦7,500,000	-₦15,000,000
TOTAL OPERATING EXPENSES (OPEX)	**-₦77,400,000**	**-₦172,000,000**	**-₦360,000,000**
EBITDA (OPERATING PROFIT)	**₦18,500,000 (16.1%)**	**₦212,750,000 (47.2%)**	**₦762,850,000 (59.0%)**
Depreciation & Amortization (Demo Hardware & IT)	-₦2,200,000	-₦4,500,000	-₦8,500,000
Corporate Income Tax (CIT & Tertiary Education Tax)	-₦3,260,000	-₦69,143,750	-₦247,926,250
NET PROFIT (AFTER TAX)	**₦13,040,000 (11.3%)**	**₦143,606,250 (31.9%)**	**₦514,923,750 (~$343k) (39.8%)**

Cash Breakeven Point: Month 8

At **65 active estates** (~₦5.5M in monthly subscription and secondary revenue), CheckPass covers 100% of its monthly variable COGS and OPEX burn. Every estate signed beyond estate #65 drops directly to net cash flow.

Runway & Capital Efficiency

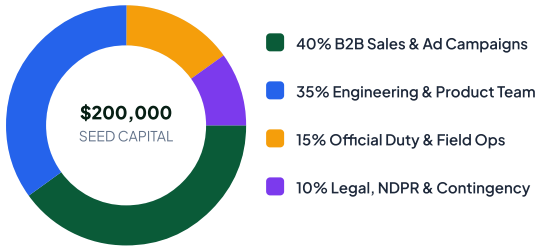

The cumulative pre-breakeven cash burn is only **~₦38,500,000 ($25,600)**. The proposed $200,000 (₦300 Million) Seed funding provides an extraordinary **24+ month runway**, allowing aggressive expansion without financing distress.

5. Competitive Landscape & Investment Ask

USE OF FUNDS

CAPABILITY / FEATURE	CHECKPASS	PAPER GATE BOOKS	MYNAIJAESTATE	GLOBAL TOOLS (E.G. KISI)
Sub-4s WhatsApp QR Passes	Native / 4 Sec	None (5–15 mins)	Slow Web / Intermittent	App Download Required
Offline Token Engine (Zero Internet)	Yes (Encrypted Cache)	Vulnerable Paper	Fails on Network Outage	Hardware Cloud Reliant
Dual Dues Engine (Online & Teller Upload)	Automated / 1-Tap	Manual Bank Tellers	Basic Invoicing	US Dollar Subscription
Vetted Resident Artisan Directory	Yes (In-App Marketplace)	None	None	None
Move-Out Manifest & Theft Protection	Yes (Photo Clearance)	None	None	None
Guard Training Policy	Digital Guides / Enterprise Drills	None	None	Requires IT Integrator

USE OF SEED FUNDS ($200K / ₦300M)

18-Month Deployment Milestones:

- ✓ **Month 3:** 40 Active Estates in Lekki & Ikoyi • Full artisan directory rollout.
- ✓ **Month 8:** 65 Active Estates • **Cash-flow breakeven point achieved.**
- ✓ **Month 12:** 120 Estates • ₦115M Revenue • Abuja regional field team launched.
- ✓ **Month 18:** 300 Estates • Automated virtual account direct debit for dues.

Investment Proposal Summary

CheckPass offers incoming investors a commanding position in West Africa's premium gated community technology sector, combining software gross margins of 85%+, near-zero customer churn, and a clear path to **₦514M+ ($343k) in annual post-tax net profit by Year 3**.
